HY-CATCH™

Available in 2 Sizes
Eco & Regular

The Hycatch Rat Trap

Range of glue traps has been specially designed for residential and commercial use, taking into account rodent behaviors.

These traps provide a safe, non toxic, convenient and effective solution to get rid of rats and mice from home, offices, factories, warehouses and other areas where the use of poisons is not desirable. An alternative to glue boards that may not hold up as well in damp or humid areas like basements and frequently wet area.

Benefits

- Water Resistant
- Durable
- Non-Toxic
- Disposable
- Ready To Use
- Optimum glue quantity
- Smaller exposure surface but optimum result

HERB-O-KILL™

The Natural Way To Eradicate Rodents

Herb-o-kill contains no poisonous chemicals and is based on ground maize combined with wheat and a sweet molasses attractant.

Herb-o-kill is effective even among rodent populations that are completely resistant to conventional anticoagulants.

Herb-o-kill unique formulation ensures:

- No risk to children or pets
- No risk to livestock or birds
- No risk of either primary or secondary poisoning - bird of prey friendly
- No known resistance
- No special requirement for transport, handling, storage or disposal
- No risk of contamination to crops or food
- No environmental pollution - fully biodegradable

Extensive on-farm trials and laboratory tests have shown Herb-o-kill to be as effective as conventional chemical rodenticides.

Hy-KILL™

- **Effective & Quality:**

High-performing gel bait product targeting all pest species of cockroaches.

- **Advanced Protection Formula:**

Advance performance compound, Cockroach Gel Bait combines a high-consumption bait mix with attractive feed fragrance to attract cockroaches.

- **Gel Fragrances:**

Cockroaches attract due to odor of gel and eat the bait and take it to their nest to share bait, resulting in killing other cockroaches and destroying the nest.

- **Quick Control Cockroach Population:**

Cockroaches cannot resist this superior combination and even the toughest populations are quickly controlled.
